

Carp

Designed by Michael G. LaFosse

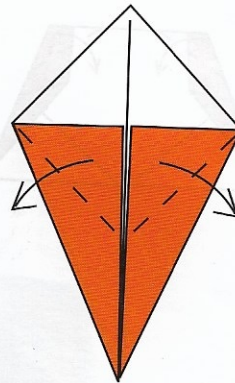

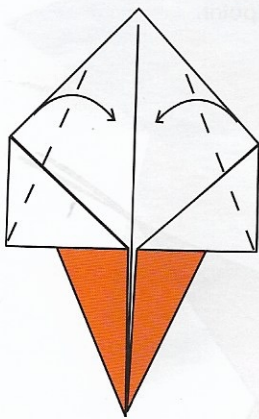

1. Begin with desired body color or pattern side down. Fold in half, corner to corner. Unfold.

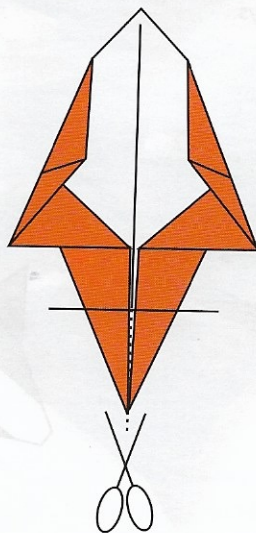

2. Fold bottom edges to the crease.

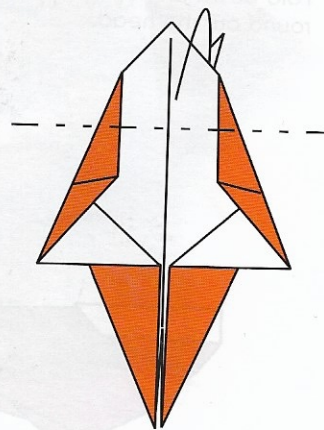

3. Fold corners out.

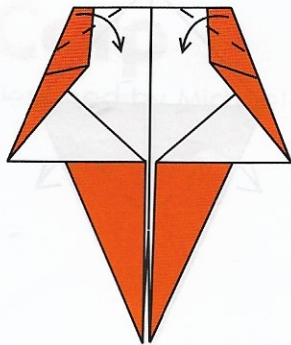

4. Fold sides in so that the upper edges are parallel to the center crease.

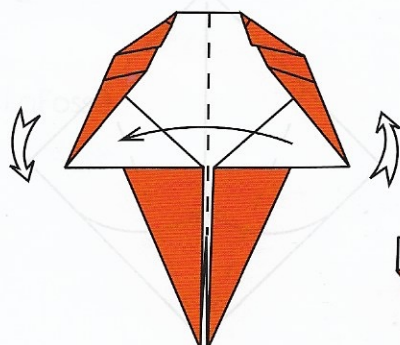

5. Cut bottom point up the middle.

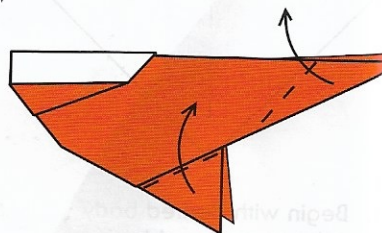

6. Mountain-fold top point behind.

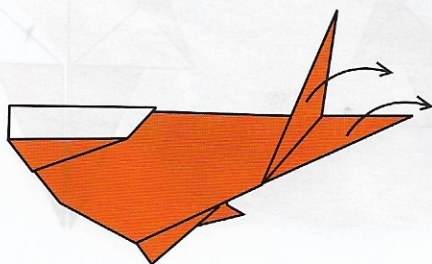

7. Fold down the top corners to round out the head.

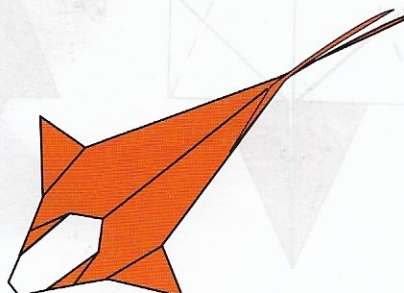

8. Fold in half and rotate sideways.

9. Fold up the fins and one tail point.

10. Curl the tail.

11. The finished Carp.
